Dear IAGESians,

Hope you had a wonderful festive season and enjoyed the break from your usual hectic schedule. IAGES in the meantime is marching ahead at full steam. We had several programs including FALS Hernia at Ahmedabad organized by none other than our Hon Secretary Dr. Sunil Popat. FIAGES courses at Trichy and Pune were grand successes. We have a forthcoming E-FIAGES course at Nasik and then the cruise conference. As mentioned in my previous communications, this cruise conference is the first of its kind for IAGES and there is a tremendous enthusiasm amongst the members. More than 200 have registered which indicates how the members are appreciating the program.

I expect a huge turn up from the members for our Annual conference at Bhubaneswar. The scientific program is almost finalized and our President Dr. Subhash Khanna along with Dr. Sreejoy Patnaik and Dr. CR Das are working day and night to make it worthwhile for the delegates.

From my side, I have already started working on next years' schedule and I promise to do my best for our beloved IAGES. I am getting all the help I need from the other EC Members and seniors for which I am ever grateful.

Indo-German exchange plan for surgeons launched

Times News Network

Trichy: The Trichy Surgeons Society and University Clinical Freiburg, Germany have forged a partnership and launched the Indo German Fellowship & Laparoscopy Society (IGLS), the inauguration of which was held in the city on Friday. The main purpose of forming the society according to the founding members, is to exchange knowledge on a local scale in the health sector, particularly in the field of minimally invasive surgery.

The inauguration was done during the first day of a GME Fellowship course of Indian Association of Gastrointestinal Endo Surgeons being held in the city. Consul General of the German Consulate Chennai, Keris Stoll, was the chief guest. IGELS founder secretary Dr K Govindan said that the main purpose was to build a bond between Freiburg and Trichy and exchange knowledge on a broad scale. Through IGELS, doctors from Trichy would go to Germany and vice versa on a frequent basis. Apart from this, exchange programmes have also to be organised for Indian students. "It's a good opportunity

Dr Keris Stoll, Consul General of the German Consulate Chennai, Keris Stoll, hands over a plaque to one of the founding members of Indo German Fellowship and Laparoscopic Society (IGELS) during the inauguration of IGELS in Trichy on Friday.

to become Fellowship in the field of Laparoscopic Surgery in Germany," Dr Govindan said.

The two main fields which will focus on are endoscopic surgery and laparoscopic surgery. In her address, chief guest Stoll said that the Indo German Chamber of Commerce brought together more than 7000 German and Indian companies and that Trichy alone had over 100 companies that employ about 25,000 jobs. She said that to make the partnership more meaningful, a joint working committee comprising re-

presentatives of the government of Tamil Nadu, the consul general of Germany and the Indo German Chamber of Commerce had been set up.

Speaking about the health sector, Stoll said, "Germany and Trichy already cooperate due to various reasons. For medical treatment received by Indians, but also for patients from abroad, Germany's healthcare system stands high. Indian and German medical knowledge works for the people it serves, both of them and about 700,000,000 in a perfect match."
